

In Comment to the LPFM proposal. Please do not let the LPFM take priority over the FM translator services. In our area an FM Translator station is transmitting family friendly broadcast. K-LOVE serves the Sacramento valley and adds value to our every day lives. Removing this programming from our area would be detrimental to the balance in the area we live. K-Love provides an encouraging word and a strong foundation for my children and friends. Please consider the importance of the local FM translator service already established and do not let the LPFM take priority. Thank you.
